HARRISBURG, PA 17111-0375
FAX 717-652-5132

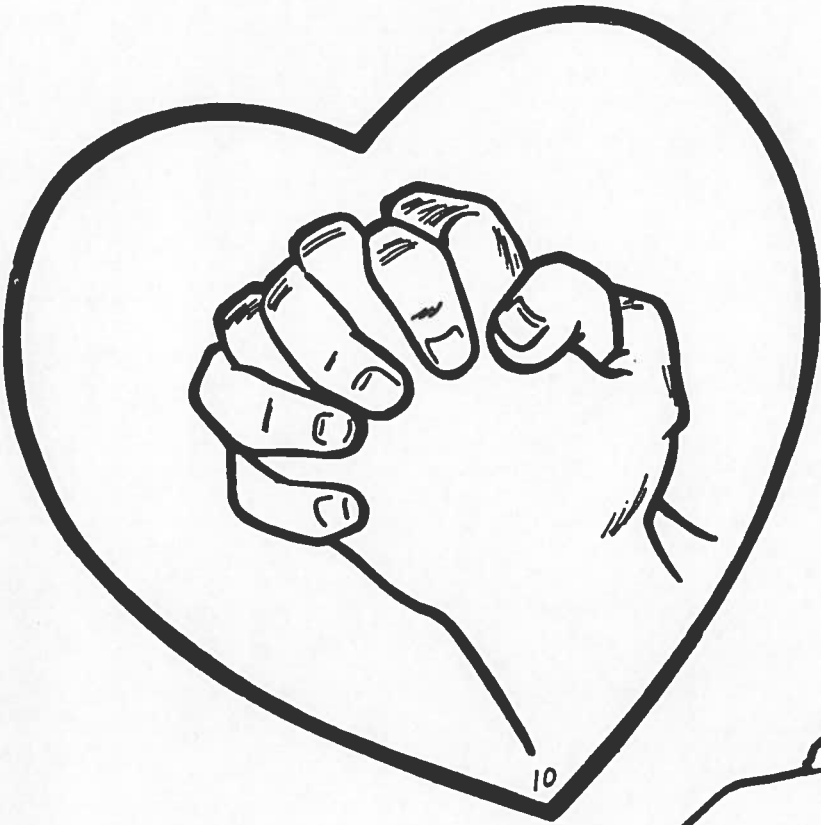

NOT for Resale, only Private Use

INSTRUCTIONS: The visuals provided can be put into a book to be used as you tell the Easter story *"The Miracle Life."* Using the butterfly halves as patterns, cut out four additional halves from white construction paper. (When cutting these pages do not include the shape of the head and tail, simply cut across to the wings.) Tape two halves together. (Leave at least 1/8" between the two halves before taping them. This will allow room for the pages to turn when the book is completed.) After taping the two halves, fold them to form one set of inside pages for the book. Repeat this process with the other two halves. Then take the two folded parts, placing one set on the left and one set on the right, tape them together. Next, tape one of the butterfly wings to the front and the other to the back completing the book. This will make a total of 10 halves for the inside of the book and 2 halves form the cover. The other pictures* can be colored and glued to the pages as shown below. (The Title, page #1, begins on the inside of the front cover and page #10 will be the inside of the back cover.)

*Be sure to put the book together before gluing the pictures on the pages.
